PROFESSIONAL EXPERIENCE

EPAM - Quality Assurance Engineer   Oct 2025 - Present
Charity project (Web application testing)

- I have been assigned as QA engineer to the charity project team.
- I'm reviewing provided documentation. Identifying gaps in the requirements.
- Testing the app - filing bug reports and giving suggestions for improvements.
- Performing Functional, Ui/Ux, Security and API testing (Tools: Web DevTools, Postman)

Solvd inc. - Quality Assurance Engineer   Jan 2025 - Present
MyFitnessPal mobile app (iOS, Android)

- I am currently working on one of the well-known calorie and fitness tracking apps worldwide, with a focus on processes such as: Onboarding new users; Sign-up and Log-in flows, Push notifications, User profile, etc.
- Responsibilities include:
  - Performing Functional and Non-functional testing (Tools: Figma, Amplitude, Firebase, Braze, DevTools, etc.)
  - Creating detailed test cases for Automation and Regression teams (Tools: TestRail, Jira, etc.)
  - Planning and executing tests based on documentation (Tools: Jira, Confluence, Harness.io, DeTools, etc.)
  - Closely collaborating with development and management teams to provide feedback at early stages.

Solvd inc. - LABA Mentor
Solvd. inc

- Currently I'm being onboarded for the position of LABA mentor. Once started, my responsibilities will be:
  - Leading group of 15 students for 2-month-long QA fundamentals intense course
  - Performing interviews with each applicant to decide their readiness for the course.
  - Preparing learning material for students. Giving and reviewing homework. Providing professional feedback.
  - Selecting successful students to be hired on the position of Junior QA Engineers

Solvd inc. - Quality Assurance Trainee   Nov 2024 - Jan 2025
Quality Assurance training program (LABA)

Key achievement - I demonstrated strong performance during the QA training program, leading to a direct hire as a Junior QA Engineer to work on new features of MyFitnessPal.

- Completed a 2-month-long QA training program covering fundamental and advanced software testing concepts.
- Gained hands-on experience with STLC, Development methodologies (Scrum, Kanban) and other QA processes.
- Worked with Jira and Confluence for test management and collaboration.
- Learned functional and non-functional testing methodologies for web and mobile testing.
- Practiced API testing using Charles proxy and Postman.
- Practiced using Android Studio and Xcode.
- Explored various testing types and methodologies that help ensure software quality and reliability.
